CONTINUING EDUCATION

D2L Continuing Education

One Solution to match your needs

D2L Brightspace is the learning core. Extend with Course Merchant or Eduframe based on program maturity and operational complexity.

Continuing education needs vary: some teams need a fast commerce layer; others need an enterprise CE platform for corporate learners, multiple modalities, automation, and integrations.

One D2L solution, differentiated by customer maturity and complexity.

FOUNDATION

Brightspace

Learning core

- Engaging, accessible learning experiences
- Course delivery and learner engagement
- Consistent foundation across both CE paths

Used with either path.

+

START

Course Merchant

Launch CE commerce

- Branded, search-friendly storefront
- Payments, discounts, and checkout
- Self-registration and SSO into Brightspace

Best for fast launch or streamlined online registration and payment.

OR

SCALE

Eduframe

Enterprise CE platform

- CE SIS and registration platform
- B2B and learner portals
- Automation and ecosystem integrations
- A seamless learner and e-commerce experience

Best for mature CE operations with modality, program, and integration complexity.

How to choose

Course Merchant + Brightspace

Choose this path when speed-to-market, online course ecommerce, and simple registration are the primary needs.

Eduframe + Brightspace

Choose this path when corporate sales, multimodal delivery, stackable programs, automation, and integrations matter most.

Talk to your D2L representative to select the right continuing education path.

Eduframe: the CE SIS & Registration Platform built to connect your ecosystem

Purpose-built for enterprise continuing education teams that manage learners, programs, modalities, commerce, automation, and integrations at scale.

Scale enterprise CE businesses

- Seamless learner journey from discovery, registration, and payment to Brightspace access and completion
- B2B revenue growth through business portals, private courses, and bulk enrollment
- Stackable credentials and certificate programs, from individual courses to full certificates
- Multi-campus and school support across credit and non-credit offerings

Save staff time and improve accuracy

- Support online, hybrid, and in-person delivery, including room and resource scheduling
- Launch faster with reusable course and program templates
- Automate course planning, enrollment, learner email, transcript, and certificate workflows
- Reduce manual work so teams can scale without adding avoidable administrative load

API-first, enterprise-ready integrations

- Publish catalogs to the institution website via WordPress plugin, Drupal module, or API
- Integrate marketing, sales, CRM, payment, reporting, and analytics workflows
- Use BI reporting across enrollment, revenue, learner outcomes, and operations
- Configure enterprise CE models with custom fields and flexible objects

"Partnering with Eduframe allows us to remove friction behind the scenes so learners and faculty can focus on what matters most: rigorous ideas, meaningful dialogue, and real-world impact."

Mary Morley Cohen, PhD, Managing Director of UChicago Professional

Eduframe is offered and supported in partnership with D2L.
