

The top student response system for improved learning

Today's institutions face insurmountable challenges, from creating adaptive student-centered curriculum to navigating an ever-changing landscape of education technology. But finding the right solution for fostering equitable learning doesn't have to be an added burden.

Poll Everywhere is a student response system designed to make every classroom, whether in-person, fully virtual, or hybrid, more engaging and inclusive with ease—giving every instructor an effective pathway towards insights-driven teaching.

Increase student participation

85% 

of instructors see an increase in student participation after switching to Poll Everywhere.

Improve learning and retention

80% 

of instructors say their teaching is more effective with Poll Everywhere.

Stronger connections to course material

70% 

of students say they felt more prepared for exams using Poll Everywhere.

Leading universities use Poll Everywhere's interactive tools to empower their instructors and turn passive students into engaged learners.

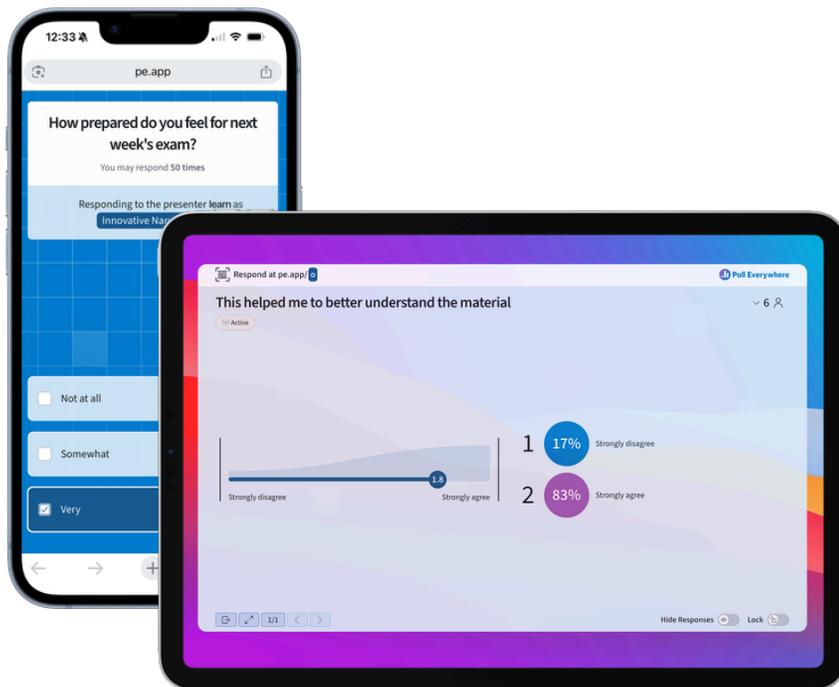

“Poll Everywhere is great to check for student understanding immediately. Instead of waiting for the quiz, homework, or test to make sure students understood the concepts, I knew right away where students had misconceptions and could easily address them during class before students went home to try to complete the homework.”

Samantha H., Math Instructor

How Poll Everywhere works in the classroom

Poll Everywhere helps educators save time and effort by allowing them to capture instant feedback from students while teaching. Assess teaching effectiveness and student understanding with ease!

- Create polls and activities to add interactivity into your courses and lectures
- Present your activities on-screen and allow your students to respond via a custom URL
- Watch customizable charts update live as responses are received in real-time
- Track attendance and sync grades, participation and response data with your LMS with LTI 1.3.

- **Improved** attendance
- **Stronger** understanding of course material
- **Increased** levels of student satisfaction
- **Higher** course completion rates

“For classroom engagement, it's such a great tool. People are using it for all different reasons: in-class surveys and polling, and outside-of-class engagement. That's why we chose Poll Everywhere four years ago and continue to stay with it.”

Patrick Graham, Instructional Technologist. Cornell University.
