

DrillBit Compliance & Security

Overview

DrillBit is built with enterprise-grade security, privacy, and compliance standards to support universities, publishers, learning platforms, and organizations handling sensitive academic content.

Compliance Frameworks

SOC 2 Type II

DrillBit adheres to SOC 2 Type II controls for SaaS platforms handling sensitive data, covering processing integrity, privacy, security & availability, and confidentiality.

ISO/IEC 27001:2022

DrillBit is certified under ISO/IEC 27001:2022, demonstrating an Information Security Management System focused on identifying risks, implementing governance and access controls, protecting confidentiality, integrity and availability, and maintaining secure operations.

GDPR

DrillBit aligns with the General Data Protection Regulation (GDPR). Personal data is processed lawfully and transparently, collected only for academic integrity purposes, protected through encryption and access controls, and managed to support applicable data subject rights.

Security Commitment

From onboarding through ongoing platform usage, DrillBit maintains responsible data handling practices and compliance protocols designed to safeguard institutional data.
