Integrity Advocate

Secure Online Proctoring. Seamlessly Integrated into D2L Brightspace.

Privacy-first assessment integrity, inside of Brightspace, invisible to learners.

#1 RANKED ONLINE PROCTORING TOOL

Proctoring That Belongs Inside Brightspace.

Integrity Advocate is a certified D2L partner that secures your assessments from start to finish, inside Brightspace. Identity verification, exam monitoring, and defensible results, all in the platform your learners already use. No new downloads or logins, no extensions, no IT lift.

As AI-enabled dishonesty and proxy testing grow more sophisticated, your program needs exam security that keeps pace without adding headcount. Integrity Advocate was built to do exactly that. Privacy-first by design, seamlessly embedded in Brightspace, and backed by human review, every outcome your program issues is fairly earned and fully documented.

WHAT D2L PROGRAMS TELL US

What matters most to Brightspace programs

Staying ahead of AI cheating

AI cheating tools evolve daily. Your proctoring should stay ahead so your results stay credible.

Knowing who is actually taking the test

Proxy testing is a growing risk. Identity verification confirms the right person is in the seat, every time.

Privacy your learners and program can trust

Invasive monitoring creates friction and pushback. Privacy-by-design means we collect only what integrity requires.

Exam security that won't burden your team

No plugins, installs, or separate logins. Proctoring that runs inside Brightspace, no burden on learners, admins, or IT.

Outcomes you can stand behind

When a result is challenged, a flag is not enough. Every outcome comes with a clear, human-reviewed record to back it up.

WHAT INTEGRITY ADVOCATE OFFERS THROUGH ONLINE PROCTORING

Human review of every AI flag

AI catches incidents. Trained reviewers decide outcomes. No automated decisions ever reach learners.

Privacy-first, by design

No installs. No unnecessary data collection. GDPR compliant on any browser, any device. Learners are assessed fairly, not surveilled.

Built for every Brightspace learner

Works on any device, any browser, any connection. WCAG-compliant. No one gets left out because of tech constraints.

A complete, defensible audit trail

Every session documented. Every decision traceable. When results are challenged, you have the record to back them up.

Activates inside of Brightspace

One LTI setup. Configure rules per activity. From there it runs itself. No IT tickets, no learner confusion.

> *"I really appreciate how Integrity Advocate integrates directly into D2L Brightspace without needing any additional downloads. This seamless integration simplifies the verification process for our students, as they can easily run Integrity Advocate if they have access to Brightspace. It's incredibly convenient and has significantly reduced the amount of tech support we need to provide, streamlining our operations. The ease of use and hassle-free setup make it an invaluable tool for our needs."*

Integrity Advocate is a certified D2L partner and assessment security platform serving education institutions, professional associations, and credentialing bodies. Our integration with Brightspace covers every stage of the assessment cycle: identity verification, exam monitoring, and outcome confirmation, with no gaps and no handoffs.

WHY D2L PROGRAMS CHOOSE INTEGRITY ADVOCATE

01

Human judgment at every decision point

Other tools automate outcomes. We don't. AI flags incidents. Trained humans decide - for fair results, every time.

02

End-to-end: inside Brightspace

Identity check. Exam monitoring. Result confirmation. No redirects, no third-party portals, no gaps.

03

No installs. Any device. Any browser.

Works on Chromebooks, shared devices, and low-bandwidth connections. No one gets blocked by tech.

04

A partner, not just a plugin

98% client retention - because we are easy to use, we stay responsive, and treat your outcomes as our own.
